Receive goods against an ASN

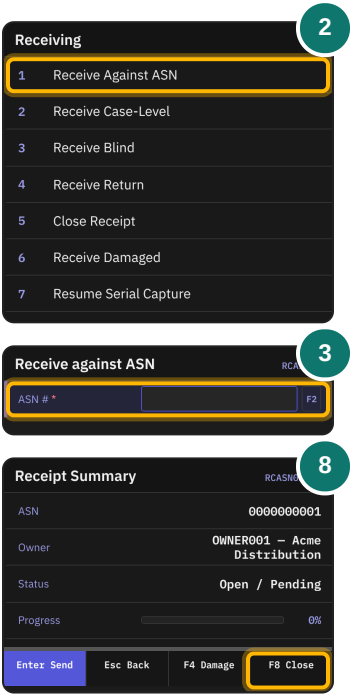

RECEIVING
RF TERMINAL

You need: the ASN number · the goods in your hands · pallet labels

1. **Main Menu: press** `1`
2. **Press** `1`
   Receive Against ASN
3. **Scan the ASN number**
   Not sure? Press `F2` to find it
4. **Check the summary, press** `Enter`
5. **Scan the SKU barcode**
6. **Type Qty. Check To Loc**
   Default is STAGE
7. **Scan the pallet label**
   Field **To LPN**, then `Enter`

↻ **More SKUs? Go back to step 5**

8. **All received? On the summary press** `F8` **(Close)**

IF SOMETHING GOES WRONG

SKU not found	Scan again. Still wrong? Call your supervisor.
Receiving less than expected	Press `F2` in Reason. Pick the reason.
Serial Capture opens	Scan one serial for each unit.
`F8` **is grey**	Serials are missing. Finish them first.

Not on this list? Do not guess. Call your supervisor.
